

Missio INTENSIVE

RECOVERING THE INCARNATIONAL CHURCH IN THE U.S.

Hosted by Fuller Seminary at the Pasadena Campus
Facilitated by CRM's Missio Team and Forge Australia
October 6-7, 2006

Unpacking and articulating what missional/incarnational church can look like in our US context. Alan Hirsch, Michael Frost and Hugh Halter will move beyond theory and into real life pictures of "non-attractional" church. This event is for anyone who is trying to move existing congregations deeper into mission and will give "out of the box" inertia to new church plant designs. Come if you're stuck, come if you're jaded. Come if you love The Church.

Missio

This event will work in conjunction with the national launch of the "Missional Church Apprenticeship Process" (MCAP). The MCAP is an apprenticeship driven, church planter training that is web-based and virtual in nature. In partnership between Missio and Fuller

Theological Seminary, the eCollege online platform will create a national community of like-minded church planters that desire a collaborative training environment. For more information see Missional Church Apprenticeship Process at www.missio.us or MCAP.
